Choosing the right frame for your loupes is just as important as choosing the right magnification!

Enova's Vizix® loupes offer a wide selection of custom-designed, stylish frames that are made specifically to accommodate loupes. Available in a variety of colors and styles, you can find the perfect pair to match your professional style and provide the support, comfort, and functionality you need.

Enova's frames are meticulously designed to fit seamlessly into your work life, while also accentuating your individuality and personal style. Whether you prefer a classic style frame or a more modern sport frame, Enova has a frame that's perfect for you.

Fast fact: As magnification increases, the field of view decreases. Many first-time loupe buyers prefer 2.5x magnification to give them a larger depth of field and field of view.

What Sets Enova's Frames Apart

- 1 Durable, lightweight construction
- 2 Adjustable silicone nose pads for added comfort; available in three styles
- 3 Magnetic light adapter for quick and easy headlight attachment
- 4 TriVEX® lenses for durability and optical performance
- 5 Spring-loaded temple arms to maintain telescope convergence and a secure, comfortable fit

Prescription Options

High-quality TriVEX® eyeglass prescriptions are placed into the Enova frames and provide a crisp high-resolution image when not using the oculars. Additionally, prescription lenses can be built into Enova's ocular lenses.

Custom Declination Angle Options

An optimal declination angle enables an ergonomic working position with minimal strain to the neck and back. Enova works with you to determine the proper declination angle by measuring the working focal point and your optimal body positioning to minimize fatigue.

Pupillary Distance

Enova custom measures the distance between the center of the pupils, which varies by person, to ensure the prescription centers correctly in the frame.

Working Distance

When wearing loupes, the depth of field is the clear area in focus. A long, clear depth of field allows you to use your loupes in multiple scenarios and with varying patients and situations. Enova works with you to identify your ideal working distance, which guides the selection of magnification power.

Color Options

Enova offers the broadest range of color options and customizations in the industry, allowing you to personalize the products you rely on every day. Choose from a selection of loupe, frame, headlight cap, and battery cap colors to create a combination that is uniquely you.

Enova optical specialists and developers are experts in designing
a loupe built to your unique measurements.

Custom Built for You

Enova's Vizix® loupes are meticulously crafted for a custom fit every time. Engineered in our Minnesota-based optical lab, our loupes are as individual as our customers; every pair is precisely designed to consider ideal working distance, individual facial features, custom lens prescriptions, and the optimal declination angle.

Loupe Lights

AXIS ELITE

Lightweight, High-Power

Illumination: 40,000 LUX

Color Temperature: 5,700K

Spot Size: 3.25" (8.2cm) at 12" (30cm) distance

Control: 3 level brightness control

Total Weight: 0.6oz (17.9g)

Run-Time: 10+ hours with a PP1.5 Elite

5+ hours with Activ Elite

Package includes 2 batteries

Anti-Curing Filter Available

AXIS

Lightweight

Illumination: 30,000 LUX

Color Temperature: 6,100K

Spot Size: 4" (10.2cm) at 12" (30cm) distance

Control: 3 level brightness control

Total Weight: 1.1oz (30g)

Run-Time: 10+ hours with a PP1.5

5+ hours with Activ

Package includes 2 batteries

Anti-Curing Filter Available

Color Caps Available

ATOM PLUS

Cordless Light

Illumination: 27,000 LUX

Color Temperature: 6,000K

Spot Size: 3" (7.6cm) at 12" (30cm) distance

Touch Sensor: 3 level brightness control,
power on/off

Total Weight: 1.4oz (41g)

Run-Time: 3+ hours

Package includes 2 batteries

Light Accessories

Activ™ & Activ™ Elite Neck Battery provide:

- 5+ hours of working time
- Capacitive touch technology with three brightness settings
- Color options including black, purple, blue, and green
- Compact, Lightweight Design:
1"x1" (2.5cm x 2.5cm) x 21" (53.3cm)
5oz (149g)

PP1.5 & PP1.5 Elite Battery provide:

- Rechargeable Lithium-ion battery
- 10+ hours of working time
- Battery pack hip belt
- Compact, Lightweight Design:
4"x2.5"x1" (10.2cm x 6.6cm x 2.5cm)
7oz (200g)

Fast fact: Using a headlight to illuminate the working field not only improves procedure performance, but can also lengthen your career. LED lighting, coupled with magnification, improves ergonomic posture and reduces musculoskeletal disorders that often worsen over time.

PP2 Battery provides:

- Rechargeable Lithium-ion battery
- 10+ hours of working time
- Battery pack hip belt
- Compact, Lightweight Design:
2.25"x4"x1" (5.7cm x 10.2cm x 2.5cm)
7oz (200g)

PP4 Battery provides:

- Rechargeable Lithium-ion battery
- 20+ hours of working time
- Battery pack hip belt
- Compact, Lightweight Design:
3"x4"x1" (7.9cm x 10.2cm x 2.5cm)
9oz (260g)

PP4+ Battery provides:

- Rechargeable Lithium-ion battery specially designed for the Quest LED Headlight
- 18+ hours of working time
- Battery pack hip belt
- Compact, Lightweight Design:
3"x4"x1" (7.9cm x 10.2cm x 2.5cm)
9oz (260g)

*Activ Elite and PP1.5 Elite are compatible ONLY with the Axis Elite
*PP2, PP4, and PP4+ Batteries are not compatible with the Axis light
*PP4+ Batteries are compatible ONLY with the Quest LED Headlight

LED Headlights

We Pride Ourselves On...

POWER

Brightest lights,
longest battery life.
